Russia is the coldest country in the world but there is no virus TODAY.

And AMERICA WINS THE WAR ...!

London, 17.03.2020, 03:36 Time

USPA NEWS - "And America wins the war"

Russia is the coldest country in the world but there is no virus to do.

Turkey is also a cold country and Iran is a neighbor but not to be there.

Afghanistan is not a neighbor of Iran but there.

Dubai is the nearest country to Iran but not to do there.

In other Arab countries, the Corona virus is not reported to anyone.

How did the Corona virus reach the European Union and its countries China, Italy, Spain and Iran and Pakistan, except for the US, Israel and the UK?

Why the Coronation Virus came to these countries is a conspiracy and secret plan behind it that will open your eyes to your surprise. China was becoming the world's economic bear at that time and the United States tried to stop China several times but failed.

The United States was not even in a position to fight China, so it turned its attention to the virus as soon as it left Afghanistan.

It was late for a peace deal with the Taliban that news of the Karuna virus spread across China around the world.

China had to stop becoming an economic superpower and the US alone was not enough for this.

The United States joins Britain and Israel to devastate China's economy. According to the planned plan, the Corona virus was released during military exercises in the Chinese city of "Wuhan" two months ago. As soon as Wuhan city, the Corona virus epidemic took hold.

In the beginning, Chinese authorities did not understand where the virus spread.

China tried to stop the news about the virus, but by that time it had gone far beyond its reach, and the US-dominated media bounced around the world.

America's first hit was successful, and the virus made China and the Chinese suspicious and unwanted around the world.

The virus spreads from China to Italy, Spain, France, Germany,

On reaching Iran. When news of the casualties began to arrive in these countries, the US asked the heads of IMF, World Bank, World Health Organization to announce the aid of these countries through secret messages.

Britain also declared aid and upon hearing the declaration of aid, the countries began to be affected as no single case was registered.

As soon as Britain leaves the European Union, the United States extends its hand and says that they rule the world together. Relationships with Britain can be gauged from the fact that the United States has also imposed on EU persons entry into the United States. Banned while telling Britain that its citizens could come to the United States.

According to statistics by the end of 2019, China had become commercially affiliated with 124 countries in the world, and its products were reaching those 124 countries, and by the end of 2019, the US had only 56 trade contacts. Was limited.

The United States was earning \$ 5.8 billion a day in the name of Black Friday and cyber-mundane, while China was selling \$ 14.3 billion worth of goods in just one day, and the same growth in China created a constant tug in the US. Was doing

The United States, Britain and Israel have begun planning to become the world's economic superpower to block China's path, and according to that plan, they first targeted China and then targeted countries whose trade with China at large. There were economic ties. Chinese products had established their base in major European countries. China had gained commercial access not only to Europe but also to the Middle East, Arab countries and Pakistan.

The whole situation was unacceptable to the United States that China was ahead of the economy.

Now the situation is that the United States has made the world a virus by luring aid and has declared itself a Day of Prayer.

The United States resorted to the media to expose China and told the world not to take anything from China or else they would die of the virus.

Now, not every country in the world is thinking of taking a penny from every citizen of China, even if they get it for free.

Since Iran was already the target of the United States and Israel, the virus was resorted to to further weaken it.

Now Pakistan was saved, where China's trillions of dollars of investment is going. The government did not see Tao and closed the

whole of Pakistan.

The result was that all of our liabilities were on Chinese products and they stopped coming and the business that was running on Chinese products disappeared.

Rumors of the virus not only affected China, but people, engineers and companies operating on SeaPak in Pakistan started fleeing to China.

The state of China, which has given the world atomic bombs to the needle, has become such that it is requesting the world to send a mask, and that is why the United States wanted China to be in such a state that it could not get ahead.

The United States has spent trillions of dollars in the wars in Iraq, Afghan and Syria, and has never been successful. But we also rule. Today the United States has left Afghanistan, Iraq has a few hundred soldiers and a few dozen in Syria.

The loss of these wars that had been fought for years was something the United States had to deal with and it had to resort to trade to meet this deficit, but China stood like a mountain ahead of it, and the war with China here was not with arms but with arms. Had to fight the mind and finally

The United States won its war without fighting China, and within a month, it was like a Chinese bear sitting on its feet.

Now, in the coming days, the United States, Israel and the UK will sell their products in the world, and as long as China stands on its own feet, it will be stuck underneath them all.

The United States undermined China's economic plans with full planning, and in this regard, it used to frighten countries such as Saudi Arabia, Qatar, Kuwait, that no one would come to their aid or else they would be killed. The house was closed down to Ka'bah Sharif.

The virus may not be so dangerous, but the propaganda against China under the guise of the virus has proved to be even more dangerous than the virus itself.

This situation is such that if a woman was raped in a village, then the news would come out of the whole village to ten villages and the result would be that the woman did not live in the house or did the pier.

This is what the United States has done to China. Now the current state of China is like that of a woman from whom all the countries of the world are running away so that it does not disgrace me. But the situation is critical, Brother, stay away.

Pakistan should help China in this difficult time, and by bringing the chaos that has spread in the name of virus all over the country to normalize and even benefit China from its trade in difficult times.

Because the Chinese are the nation that breaks everything and will never solve the virus till tomorrow, and they will always remember those who support them in difficult times.

6- May Allah save the bad time that in Pakistan till this time no one died from the Karuna virus and chaos has spread so much that the Chinese themselves are shocked.

The Chief Minister never showed any such hunger in Thar children. The only PPP schooling school in Larkana closed the college and the Chief Minister is giving twenty-one gun salutes to Sindh and we are happy that Wow, just one Chief Minister working against Corona.

We have heard billions of dollars of aid come to our mouth as well, but we do not know that this contribution is actually part of the US and Israeli project that was made to block China from the wall and we are as simple as say 50 billion. You are coming

Ask any US, UK and IMF why China is entitled to aid" why not give it?

You can jump from tree to tree, just like a monkey to show the world but

We must distinguish the relationship between US aid and our friend China.
